## **The TF1 Group and VIDEOFUTUR, a national fibre operator, announce a new global distribution agreement**

This agreement allows VIDEOFUTUR to integrate the channels of the TF1 Group (TF1, TMC, TFX, TF1 SERIES FILMS and LCI) as well as the non-linear services associated into its offers.

VIDEOFUTUR Fibre subscribers will very soon take advantage of innovative functionalities on all their screens around the TF1 Group's programs:

- extended catch-up windows for programs on MYTF1,
- programs premiered ahead of TV broadcast,
- new functionalities (Cast, Start-over, nPVR) associated with TF1 Group content.

This announcement strengthens the partnership between the two companies, which also benefit from an agreement on the distribution of the TFOU Max service, the channels TV Breizh and Ushuaïa TV, as well as the VOD exploitation of TF1 Studio films.
