Full-year 2026 guidance maintained

with visibility remaining limited

Capitalising on its strategy, on its new digital initiatives and on its solid financial position, the Group's targets are as follows:

Strong double-digit revenue growth in digital

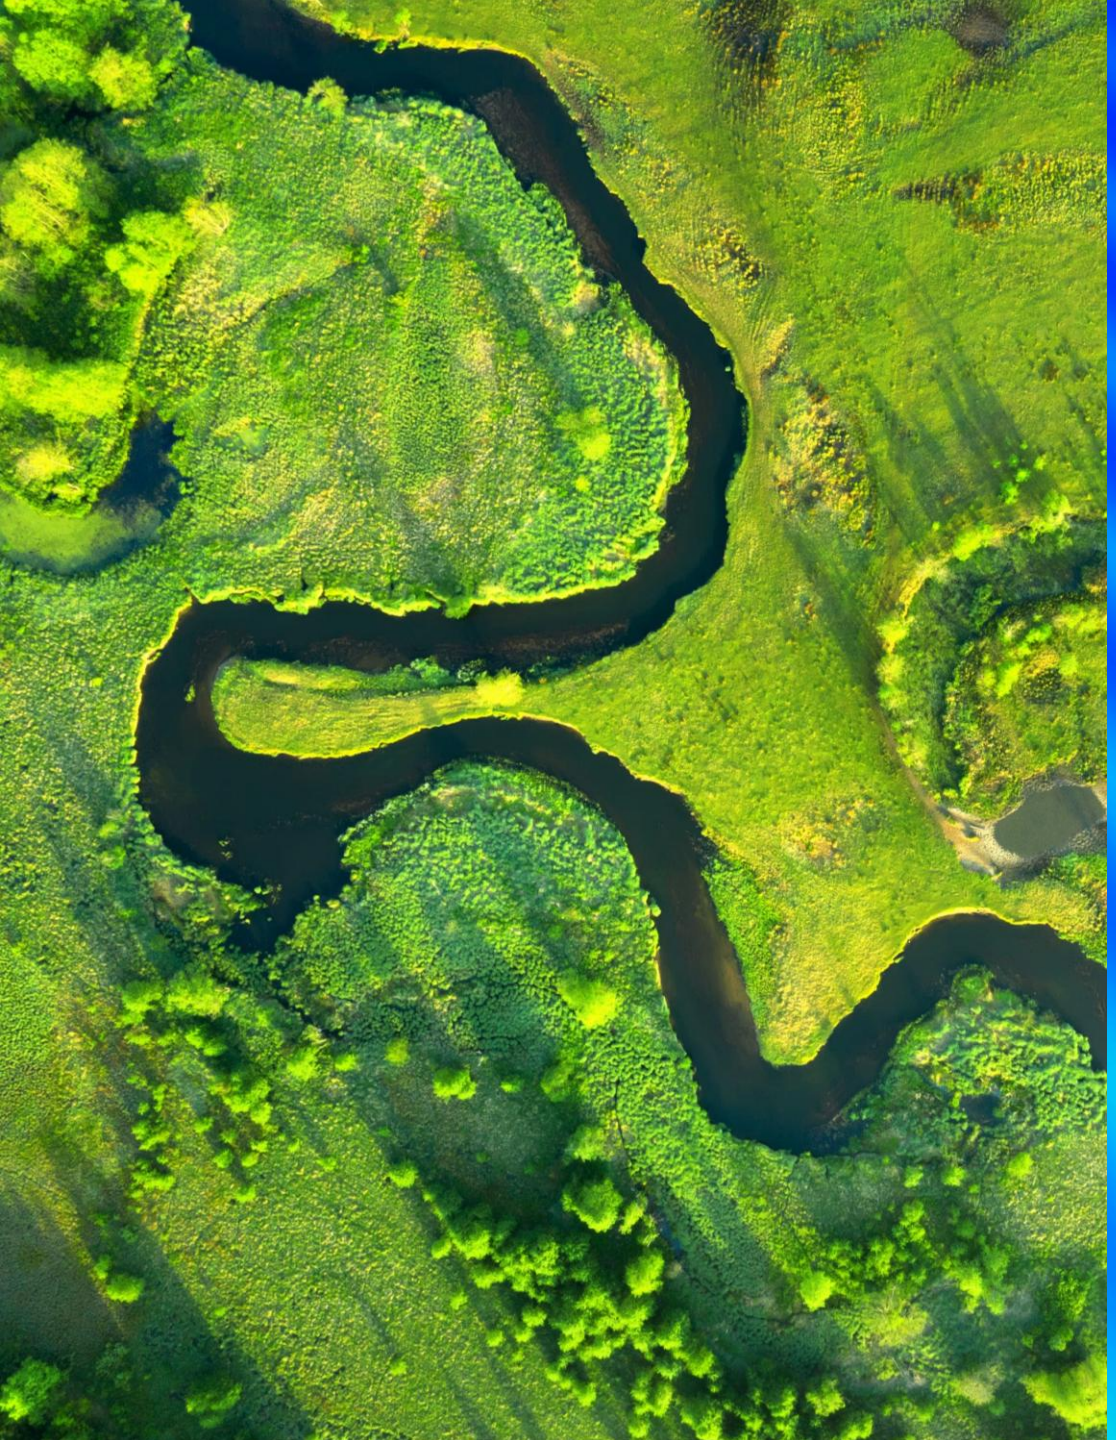

Aim for a growing dividend policy in the coming years

Against a backdrop of rapidly changing consumption habits and a persistently unstable macroeconomic and political environment, the linear advertising market remains under strong pressure in 2026.

During this digital transition phase, the Group intends to **maintain a mid-to-high single-digit margin from activities before capital gains in 2026**, subject to the evolution of the linear market
